HISTORIC RESTORATION/PRESERVATION

Perfect Edge has quickly become the specialist in the Fort Collins area for restoration and preservation of historic homes. Old homes love us! Our restorations ensure that historic properties will be enjoyed for many decades to come. Removing all the years of unstable paint from a home is key to a complete exterior restoration. This allows us to find and repair any damaged wood so that we can start fresh with the best primers, paint and epoxies available on today's market. These modern coatings assure a maintenance free exterior for many years. For a building's interior, restoration brings out detail that may have been hidden for years. Older homes have beautiful wood, many with hand-carved details and carpentry that is rarely seen in newer construction. People are amazed at the detail that we put into these jobs.
